

Career Summary

Graham's industry exposure includes Banking, Insurance, Gaming, iGaming, Blockchain, Medical, Aerospace, Engineering, Textiles, AI, IoT, Big Data, Travel, Hospitality, Human Resources, Advertising, Media, Education, eCommerce, Pharmaceuticals, Energy, Aviation, Pets, Real Estate, Manufacturing, Fashion and more. He has worked with companies ranging from unknown startups to such well-known brands as Bayer, IATA, Microsoft and IBM.

A seasoned consultant with two decades of experience, Graham has worked in Management, Operations, Finance, Business Development, Mergers and Acquisitions, Research & Development and Project Management. Deeply proficient at leading international, distributed and multi-cultural projects and teams, Graham is an expert in terms of designing and deploying strategies intended to create or expand opportunities for new products and services.

Success Overview

Graham holds a dual-major Undergraduate Degree in History & Computer Science from Concordia University, a Diploma in Strategic Management from the Sauder School of Business at the University of British Columbia, and a Masters of Business Administration Degree from the University of Liverpool.

Graham has authored three books, written hundreds of articles, and holds many certifications, including Blockchain Developer Certifications from IBM, and a Blockchain Strategy Programme Certificate from the Saïd Business School at Oxford University.

Graham is an Adjunct Professor at the School of Business in Gratia Christian College, and a Lecturer at the School of Design in the Hong Kong Polytechnic University, where he designed and delivered both its Blockchain Curriculum and Blockchain Applications Research Lab.

Graham is an Expert Committee Member of the Asian Blockchain Society, a Specialist Sub-Committee Member of the China Industry Blockchain Association and a Vice-Chairman of the Hong Kong Blockchain Association.

Graham has worked extensively with Governments, Schools, and Non-Profit and Non-Government Organizations and Agencies including Concordia University, Hong Kong Polytechnic University, where he designed its Innovation Policy for the School of Design, and the Hong Kong Science and Technology Park, where he designed and delivered its Robotics Garage.

Graham first became involved with Blockchain in mid-2016, when he was recruited by SingularityNET to be its Business Strategy Lead. He helped to design and deliver a fund-raising campaign that generated USD36M for SingularityNet in just over a minute. He has since worked with a multitude of Blockchain-oriented projects.

Graham's research interests are Entrepreneurship and Blockchain. He writes extensively about Blockchain, and he frequently speaks at Blockchain conferences and events around the world.
