LAB D

**Link the WEDDING PROJECT Work Packages
into Meaningful Chains of Execution**

It's All About The Links...

- Take the ~100 tasks generated from **LAB C** that you grouped together and decide if they represent Work Packages.
- Once you are done, sequence them in logical way.
- Figure out how to deal with tasks that do not fall naturally inside your defined Work Packages.
- Link everything together into a closed network that has no dangling tasks.
